Situated on the southeast coast of Phuket, Thailand. With its strategic location on the Malay Peninsula at the top of the Strait of Malacca, Phuket was a major trading post for the region, attracting British, French, Portuguese and Chinese ships. Chalong Bay Rum has been produced as the purest expression of 100% natural Thai sugarcane. Whilst respecting the tradition of rum making we use a novel approach that involves innovative craftsmanship, sustainable production and local enterprise.

“Sire Montra”, the inspiration of Southern Thailand. The only type of massage mixed between culture and nature, that uses Langkasuka Oil with hot rocks followed by “Sire”, a name of betel leaves called by the sea gypsy in Phuket. “Sire” is a local plant which, in the past, was widely found around Sire Island of Phuket. This is also the reason why it is called “Sire Island”, which is after its past abundance in Sire or sea gypsy’s betel leaves.

Sire (betels) is good for getting rid of Urticaria, and curing itchiness. The plant contains Eugenol and Chavicol resulting in boosting blood circulation and preventing types of bacteria from growing. Langkasuka oil is specially made from top grade herbs and hereditary local wisdom from the three border provinces of Southern Thailand. It is special massage oil helping with relaxing, moisturizing, and rejuvenating your skin which is originally used with women who have just recently given birth. However, now, it is widely used with, and good for both men and women.
